International Exhibition & Conference for Horticultural and Floricultural Production and Processing Technology in Vietnam

13 - 15 MARCH 2024

SECC, Ho Chi Minh City, Vietnam

Organizers: Partner Event: Supported by:

Come grow with us!

Vietnam

is a vast emerging market with a population of nearly 100 million people and has achieved remarkable economic growth averaging 7.5% annually since 1991. The International Monetary Fund (IMF) projects a growth rate of 6.1% in 2023 and 6.5% in 2024. Moreover, Vietnam is among nine nations in the world with the fastest-growing middle class in the coming decade. Consequently, Vietnam stands out as the fastest-growing economy in the ASEAN (Association of Southeast Asian Nations) region.

The horticulture and floriculture sectors are among the most promising industries in Vietnam's economy. Vietnam has been striving to enhance the quality and competitiveness of its fruits and vegetables to meet local demand and to boost their exports to other markets.

This in combination with many free trade agreements between Vietnam and partners, both within and outside the region, and strong domestic demand will further boost growth in the coming years.

Additionally, experts believe that Vietnam has the potential to become one of the world's most significant flower exporters.

HortEx Vietnam enables suppliers within the horticulture and floriculture sector to connect with key players in Vietnam and neighboring countries, allowing them to capitalize on business growth opportunities.

“

HortEx Vietnam was first successfully launched in 2018. Over the past five editions (includes one digital edition), from 2018-2023, the exhibition attracted nearly 700 companies and welcomed over 19.534 trade visitors from Vietnam and abroad. For the coming years a further growth is expected.

HortEx Vietnam is the first and only specialised exhibition and conference for Horticultural and Floricultural Production and Processing Technology in Vietnam.

”
